## ABOUT THE JOURNAL

**E***ducation Next* bases its editorial policy on the premise that the education sector is ripe for major change and reform. We publish articles that feature some of the best current thinking on issues such as encouraging school choice, raising standards, and improving teacher quality.

We are committed to encouraging the open exchange of ideas, presenting the latest research findings, and stimulating thoughtful discourse about contemporary education.

Since the Spring of 2001, *Education Next* has produced high quality quarterly journals which have disseminated cutting-edge research and thoughtful feature articles that are as accessible to the everyday parent as they are to academics.

In fact, according to a study released by the Editorial Projects in Education (EPE) Research Center, *Education Next* is the most influential journal and the 8th most influential source of information about K-12 education over the past decade.

Our comprehensive website, <http://educationnext.org>, houses not only full archives of our print content but also hosts blogs, videos, and podcasts, with new material available daily.
